

# Nahlin River Song

© Jenny Lester 2010

          C                  F  
There's an eagle above a mountain

          C                  G  
Floating high upon the breeze

          C                  F  
We are rolling to the river

          C          G                  C  
And the river is rolling to the sea

I have felt the raindrops

I have shed the tears

Let the rivers rise up

Wash away our fears

## Chorus

Dance upon the white caps

Bathe in the sun

Look up to the morning

The day is almost done

## Chorus

          F                  G  
Now stand in the moment

          F                  G  
Before the moments gone

          F                                  G  
You can come back through the memories

          F                                  G  
But the memories might be wrong

## Chorus

4/4

Verse & Chorus
